Core Competencies

SCIS is a service-disabled veteran-owned small business (SDVOSB) providing an extensive range of innovative hardware and software engineering solutions – from initial design and development through low-rate production. Our small business size, agility, and cost effectiveness enable us to deliver unmatched value to meet or exceed our Mission Partners' goals and objectives.

Software Solutions

Full lifecycle software support for classified networks/systems, system architecting, web services/applications, GUI design & development, Android, Windows, data processing/analysis, & Database/Systems Administration.

Integrated Solutions

Integration and ruggedization of tactical solutions for harsh environments and specialized missions. Complete solution development, production, fielding, Operations & Maintenance (O&M) support.

Hardware Solutions

Rapid prototyping, systems integration, engineering & manufacturing development, low-volume production, product lifecycle management.

Past Performance

Air Force Technical Application Center (AFTAC):
- Prime Contractor, Nuclear Sciences Data Evaluation Services (NDES) III
- Prime Contractor, External Data Ingest Solution (EXDIS)

Peraton:
- Subcontractor, Atmosphere & Space Mission System Support (MSS) 2

Leidos:
- Subcontractor, Aircrew Electronic Warfare Tactical Training Range (AEWTTR)

Differentiators

- **Small Team Culture with Cost Optimized Process and Procedures**

- **Full Lifecycle System Development**
  - Research & Development (R&D)
  - System Design and Validation
  - Production
    - LRIP & Full Rate
  - Operations And Support (O&M)

- **DevSecOps Developers for Mission Critical Solutions**
  - Top Secret Enclave

Technology Focus

Cyber-Secure Software Development

Conforming to best practices and standards as defined by NIST, OWASP, IEEE, and other government bodies - validated using static and dynamic analysis tools, a strong DevSecOps process, thorough code review, and formal testing

Secure Wireless Infrastructure

Secure wireless communications tailored to mission requirements using both public and private protocols and infrastructure to maximize efficiency and effectiveness.

Sensor Connectivity Solutions

Disparate sensor and system integration leveraging open and scalable technologies – extending the life of legacy assets while establishing flexible protocols for current and future communications technologies.

Electronic Warfare Training Systems

Development, integration, and modernization of simulation and training systems – affording our Mission Partners the ability to train against real-world threats.

Company Data

DUNS Number: 831155226
CAGE Code: 5L4Y8
NAICS Codes:

Code	Description
541330	Engineering Services
334290	Other Communications Equipment Manufacturing
334511	Search, Detection, Navigation, Guidance, Aeronautical, And Nautical System And Instrument Manufacturing
334515	Instrument Manufacturing For Measuring And Testing Electricity And Electrical Signals
541511	Custom Computer Programming Services
541513	Computer Facilities Management Services
541519	Other Computer Related Services
541611	Administrative Management And General Management Consulting Services
541618	Other Management Consulting Services
541620	Environmental Consulting Services
541690	Other Scientific And Technical Consulting Services
541715	Research And Development In The Physical, Engineering, And Life Sciences (Except Nanotechnology And Biotechnology)
541990	All Other Professional, Scientific, And Technical Services

Corporate Info

- Service-Disabled Veteran Owned Small Business (SDVOSB)

- Top Secret Facility Clearance
  - Fully Cleared Staff up to TS/SCI

- Access to Local Contractor SCIF

- 12 Year Track Record of Supporting DoD and Intelligence Customers

- Headquartered in Melbourne Florida
  - 4,800 ft^2 of office space
  - General office, engineering labs, and production Spaces
